

# Phi Delta Kappa

*Baylor University Chapter*

MAY 2005

## Greetings

Greetings Baylor PDK members! I am excited to be the President for our local chapter. As a former secondary teacher and a current teacher educator, I believe this organization provides the best venue for

networking with pre-service teachers, classroom teachers, teacher educators, administrators, and other community leaders vested in educating our children in a democratic country.

*Colleen Eddy  
President Elect*

## Goals

My goals for the year as President are to provide opportunities of leadership, research, and service to support our community and our members in their profession. Your officers will be meeting in June to prepare for the coming year by setting goals for our local chapter. I would like to hear from you if you have any suggestions or comments of how the chapter can serve you and how you would like to serve within the chapter.

One goal for our chapter is to design and maintain a local website to support communication. Shannon Trimble, Officer of Publications, has already begun designing the website. You will be informed in a future newsletter of when the site will be available. I look forward to seeing you this coming year!

*Colleen Eddy  
President Elect*
